

Starting a CIRB application:

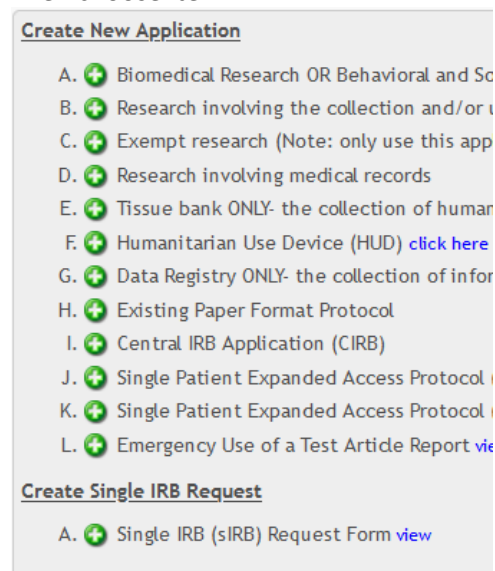

UNMC requires a Central IRB application be submitted, please. This application allows us to make sure that the research is allowable per UNMC HRPP policy 1.4 (<https://guides.unmc.edu/books/hrpp-policies-and-procedures/page/14-unmc-ceding-review-to-an-external-central-irb>) and to have something to tie the reliance agreement to. Reliance agreements are negotiated between the two IRBs and outline who is responsible for what. More information is available on the Central IRB tab on the UNMC IRB website: https://www.unmc.edu/irb/singlecentral/central_irb/index.html

To start a CIRB application, please log into RSS (<https://net.unmc.edu/rss/>),

Choose “New Protocol/sIRB Request”

Then choose item “I”:

Complete the application, upload all supporting documents (consent templates, protocol, surveys, and any other study documents), sign and submit.
