

Create and Update Appointments

Creating Appointments

To create a new appointment on an instrument, access the "CORE" tab in the RSS. Under "Scheduling," select "Instrument Scheduler." Follow the instructions in the view schedule section to navigate to the date you'd like to create the appointment.

To create an appointment for an instrument using the online scheduler, you must first be given authorization by the core facility. [Contact the core facility](#) for additional guidance.

repeat

Next, enter the name of the person who will be billed. **This should be the person who is financially responsible for the project being conducted**, typically a Principal Investigator or University faculty member. While research associates, postdoctoral researchers, and students may request services from core facilities, the financially responsible person will typically be the

person who is listed as principal investigator on the grant being debited for the work.

Enter a few letters of their last name into the "Bill To" field, then click the name of the person to select them. Once selected, their name will appear in the grey box next to the "Bill To" field.

If the contact person for the appointment should be different from the person who is being billed, enter their name into the "contact" field. This field works the same as the "bill to" field.

This is generally the person who will be responsible for the samples. Generally, administrative assistants or departmental administrators should not be entered as the contact. Entering contact information will add that person to any automated notices that are associated with the appointment.

The contact field is a required field. If the billed person is also the requesting person enter their name again in this field.

This field works the same as the "bill to" field. Enter a few letters of their last name into the "contact" field, then click the name of the person to select them. Once selected, their name will appear in the grey box next to the "contact" field.

Enter any other contact information, like alternate numbers or good times to call, in the "contact info" field.

protocol (**use the ctrl key to select multiple protocols**)

bio hazardous? *

Yes

No

machine operator *

Information can be entered into the project fields to tie charges to a specific project. An internal ID may be included in the project ID field and the IRB/IACUCC protocol may be selected.

If the sample being submitted for analysis is biohazardous, mark the "yes" option.

project id	protocol (**use the ctrl key to select multiple protocols**)	bio hazardous? 
<input type="text"/>	<div>053-95-FB-IRB-Jennifer Larsen, MD 124-07-EP-IRB-Jennifer Larsen, MD 382-08-FB-IRB-Jennifer Larsen, MD</div>	<input type="radio"/> Yes <input checked="" type="radio"/> No

In the machine operator dropdown, select the individual who will be performing the service or analysis. This may be a core facility staff member or a lab staff member who has received training from the core facility. If you're unsure who to select as the machine operator, contact the core facility.

The service type dropdown will list the available services that can be provided by the selected operator on the machine or instrument being scheduled. Select whichever one needs to be performed.

Once the bill to, machine operator, and service type fields have been entered, the application will calculate and display the estimated charges for this appointment.

Appointments made in the online scheduler must include a payment method in the form of a cost object.

Edit Appointment

To edit an existing appointment on an instrument, access the "CORE" tab in the RSS. Under "Scheduling," select "Instrument Scheduler." Follow the instructions in the view schedule section to navigate to the date of the appointment.

Appointments cannot be edited after having started. Additionally, core facilities are allowed to set appointment edit lockout times. Contact the core facility to change the details of an appointment that has already occurred, or is occurring soon.

Cancel Appointment

To cancel an existing appointment on an instrument, access the "CORE" tab in the RSS. Under "Scheduling," select "Instrument Scheduler." Follow the instructions in the view schedule section to navigate to the date of the appointment.

Core facilities are allowed to set cancellation lockout times. These may vary by core and by instrument. To avoid being charged for a no-show appointment, contact

the core facility to cancel your appointment within the lockout window.

Show Step-by-Step Details

Navigate to the appointment that you would like to cancel. Select the "delete appointment" icon from the far right column.

09:45 AM				
10:00 AM - 13:00 PM	Zaid Al-Kadhimi	Holly Britton	Holly Britton	
13:00 PM - 15:30 PM	Tammy Kellan	Cortney Madsen	Cortney Madsen	
15:00 PM - 17:00 PM	Kyle Hewitt	Linda Chee	Linda Chee	
17:00 PM				
17:15 PM				
17:30 PM				

This will open a new dialog box asking for the reason for the cancellation. Uncheck the "send email" checkbox unless you want to notify the other named persons on the appointment of the cancellation. Click the "Cancel Appointment" button to complete the cancellation.
