

View the Instrument Schedule

Introduction

The Instrument Scheduler (IS) is a powerful tool that allows researchers and core facility staff to view, create, and manage appointments for machines and instrumentation.

Instrument Scheduling

The screenshot shows a web interface for instrument scheduling. It features three dropdown menus labeled 'core:', 'instrument:', and 'date:'. The 'core:' and 'instrument:' dropdowns have a small downward arrow on the right. The 'date:' dropdown has a calendar icon with the number '23' on the right. To the right of the dropdowns are two buttons: 'Day View' and 'Month View'.

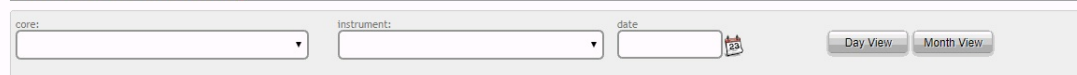

View the Schedule

To view the schedule for an instrument, access the "CORE" tab in the RSS. Under "Scheduling," select "Instrument Scheduler."

The schedule for an instrument can be displayed by day in an agenda format or by month in a list format.

Instrument Scheduling

[Classic Menu](#)

This screenshot is identical to the one above, showing the 'Instrument Scheduling' interface with 'core:', 'instrument:', and 'date:' dropdowns, and 'Day View' and 'Month View' buttons.
