

Training

Biosafety Training Program

General biosafety training is required by all individuals conducting research on the UNMC/UNO campuses that involve biohazardous materials. All training modules can be accessed through Canvas.

The NIH Guidelines state it is the responsibility of the institution "to ensure appropriate training for ... principal investigators and laboratory staff regarding safety and implementation of the NIH Guidelines" (Section IV-B-1-h).

Documentation of successful completion of training is required in order to receive an IBC approval, whether involved with a new application or for a re-application. After the initial training, General Biosafety is valid for 3 years. BSL-3 and Select Agent is valid for 1 year.

Your training will appear on Canvas within 48 hours of assignment. If you do not see it after this time, please contact the IBC administrative office at ibcora@unmc.edu or 402-559-6463.
